

DIRECT TO WATER LIFTS - BOATS

REMOVAL OF BOAT CRADLES AAT FI

Due to many boat cradles being left at the AAT FI Facility for extended periods of time, please be advised that effective immediately AAT FI will require a cheque deposit of \$1000.00 + GST prior to any boats being placed direct to water and/or truck.

Stevedores are to confirm with appropriate Shipping Line Clerk if cargo is clear and that deposit has been received prior to placing items direct to water and/or truck.

When cradle is picked up, the cheque can be collected from the R&D office.

If the cradle is not removed within the free storage period then AAT reserves the right to use the cheque to cover costs for disposal of the cradle.

Regards,

Steve Jorgensen
