

Licence Plate Recognition (LPR) is now the primary method of access into the Port Kembla Inner Harbour precinct.

To facilitate the registration of vehicles for use at Tom Thumb Rd, stakeholders can access the **Rapid Global** platform to register the licence plates of their company and private vehicles.

If you access the precinct in a **COMPANY OWNED VEHICLE** your company administrator **must register the vehicle** as **TRANSPORT** in their company profile in **NSW Ports Rapid Portal**.

If you access the precinct in a **PRIVATELY OWNED VEHICLE** your company administrator **must issue you with an induction key** in the **NSW Ports Rapid Portal**.

You must log in, complete the induction and enter the registration number/s of your vehicle/s (up to 3 registrations per user).

Contact NSW Ports for assistance with registration
