

## Notice

### AAT's New Terminal Operating System – Master Terminal “Go Live”

28/04/17

Dear Customer

AAT is ready to go live with implementation of our new Terminal Operating System, Master Terminal, from:

**Monday 8<sup>th</sup> May 2017**  
**AAT Port Kembla Terminal**

This fully integrated system will provide a real-time view of cargo related activity across our Terminals and provide greater visibility of cargo movements to Terminal users.

We have spent a significant amount of effort testing the new system, verifying data integrity and ensuring complete end to end process analysis.

Commencing next Monday 1<sup>st</sup> May, we will have information pamphlets available to our Terminal users as well as on site personnel to assist with training and familiarisation of the integrated processes.

Please share this information appropriately within your organization. If you have any questions or concerns, please don't hesitate to contact the undersigned.

Yours sincerely,

**Lana Howell**  
**Port Kembla Terminal Manager**  
**Australian Amalgamated Terminals**
